Public Comment: None.

Persons to be heard: Linda Webster (RE: City council member physical presence requirements): Misty read a letter from Linda. Please see attached. Linda could not be present so she left a tape recorder. On the recorder Linda requested that the council review Title two, ordinance 2.02.100 in regards to item two. Linda read verbatim the letter she wrote. She stated that she is not trying to remove anyone from council and that this is not a personal matter. She feels that someone gone from the community for longer days is out of touch with what the community needs and that it affects the entire community. Elaine stated that we have removed people from council in the past for just not showing up to meetings. Gary does not think we should start filtering out people because it is hard enough to find interest in council seats.
