

Coffman Cove Volunteer Fire Department Report City Council Meeting Packet – August 2017

Membership & Training

The regular meeting was held on the last Saturday of the month and other work was done throughout. Thanks to Coffman Cove EMS for their continued cross-department support. Volunteers performed general maintenance and ensured vehicles are prepared if needed.

Equipment

Trucks have been run regularly and are checked on a weekly basis. The donation process for the apparatus from Anchorage Fire Department is progressing with the title and other information in-hand. The Chief is working on the DMV registration and with the City Clerk for insurance coverage, in that order. Once completed the donation and exchange can be finalized. Transport options have been assessed and the department will work with the Mayor to finalize the lowest-cost option.

Outreach/Prevention/Coordination

Volunteers continue to work with island-wide (and KTN, WRG, JNU) emergency service (Fire/EMS/Red Cross) providers to ensure cooperation and capacity in the event of an emergency. We continue to recruit new volunteers and to share education materials about home fire safety through social media and direct outreach to community members.
