

FIRE REPORT pg. 2

It is my recommendation to City Council that we actualize the most cost effective transport option for shipping the fire truck from ANC to Thorne Bay via AML. They've generously offered to donate \$1000 of the cost of shipping to the CCVFD which brings the total cost to \$1600 all the way to the island.

I would also be happy on council's approval to reach out to other fire departments on POW to inquire about their current needs and the possibility of donation of our red truck. I can reach out to folks on the Whale Pass, Thorne Bay and Naukati departments, if that is something Council would like me to do.

With apologies for not being at this month's meeting in person as I am otherwise obligated for work

Thank you,

Peter
